## Entry-Level Web Developer

Driven and passionate Web Developer with hands-on experience in creating web applications. Currently enhancing my skills through various projects and staying up-to-date with industry trends. I am eager to apply my knowledge in a professional setting, address real-world challenges, and contribute to innovative solutions.

## Education

### IEK Lamias

IT Application Technician | 2014 - 2016

## Projects

### Yelpcamp | Node.js, Express.js, MongoDB, Passport.js

- Full-stack application where users can create and review campgrounds.
- Secure user registration and authentication.
- Search campground by name or location.

### Shophub | Node.js, Express.js, MongoDB, Passport.js, Stripe API

- Full-stack application where users can browse and buy products.
- Secure user registration, authentication and payments.
- Account details and order history.

### Shophub Admin Panel | Node.js, Express.js, MongoDB, Passport.js

- Full-stack application using same database as Shophub.
- Add/Edit/Remove products only for admins.
- Check user orders.
